

# **INHA UNIVERSITY TASHKENT DEPARTMENT OF CSE**

**SPRING SEMESTER 2021**

## **SOC 2110 - INTERNET PROGRAMMING**

### **PROJECT WORK: PERSONAL BLOG**

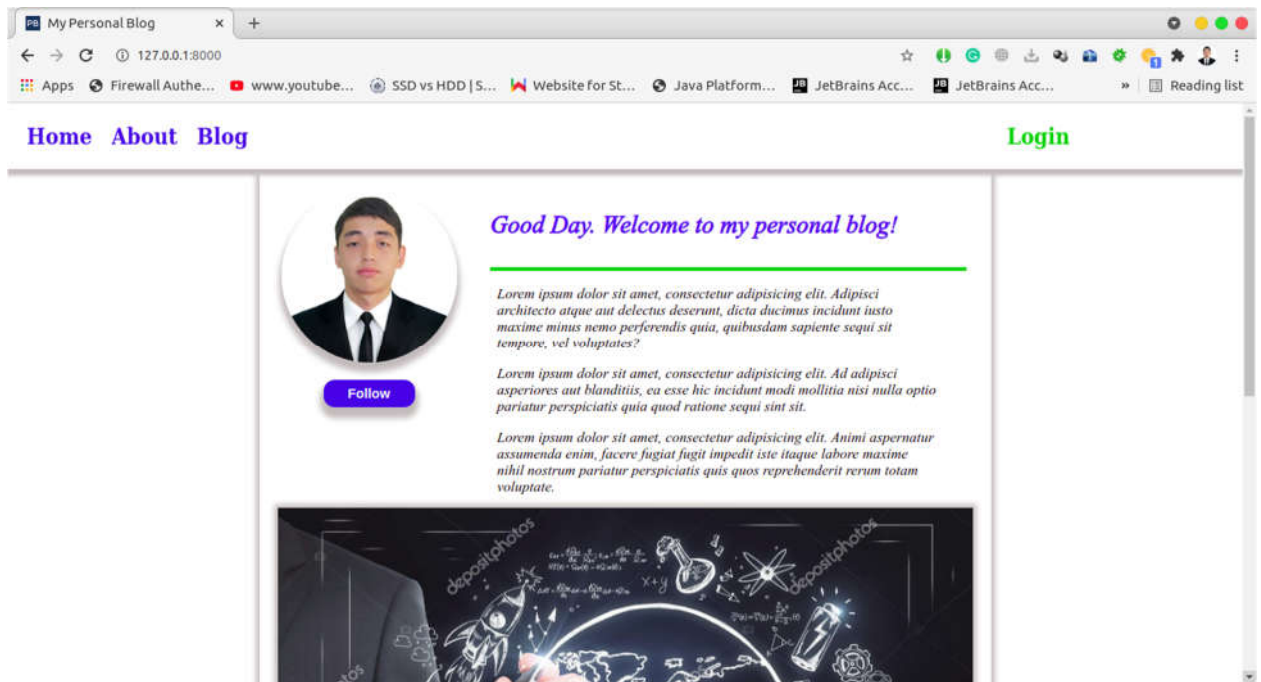

**Team name: CodeForce**

**Team members:**

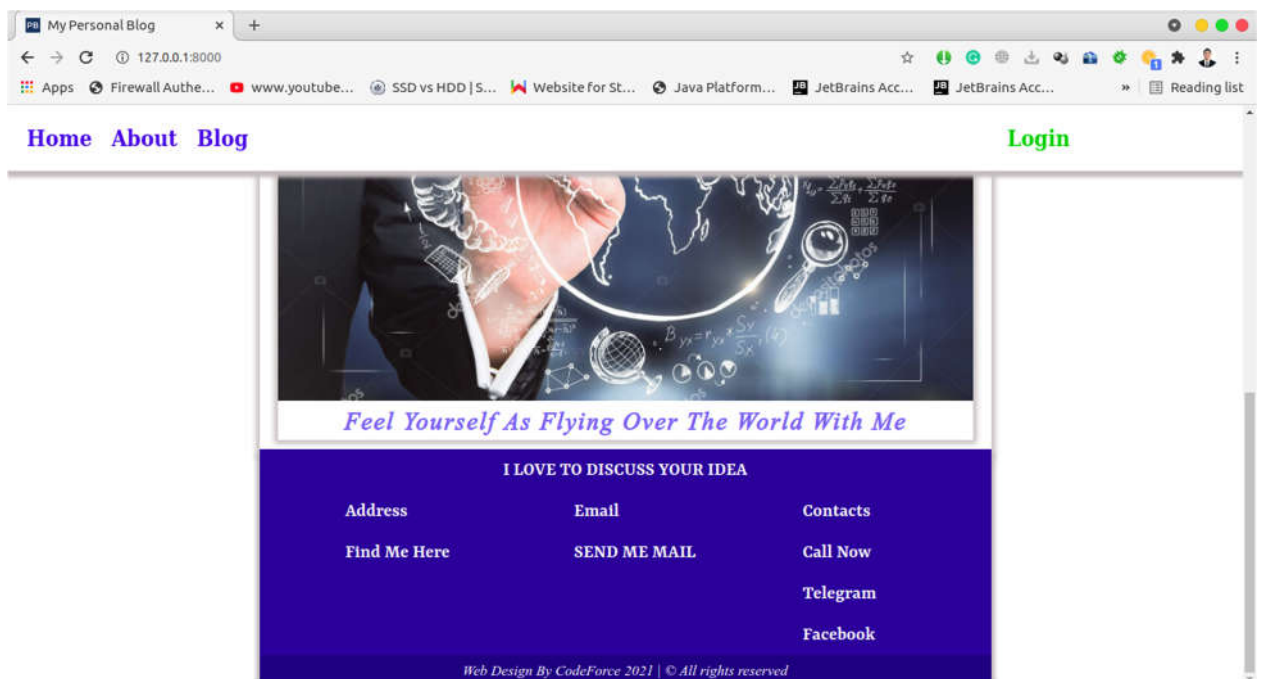

- 1. U1810069 Safarov Otamurod**
- 2. U1910061 Karimov Khojiakbar**
- 3. U1910089 Askarov Jamshid**
- 4. U1910091 Ulmasov Mirjakhon**
- 5. U1910295 Abdurashidov Abdulla**

**LINK TO GITHUB REPO: <https://github.com/iuthub/group-project-codeforce>**

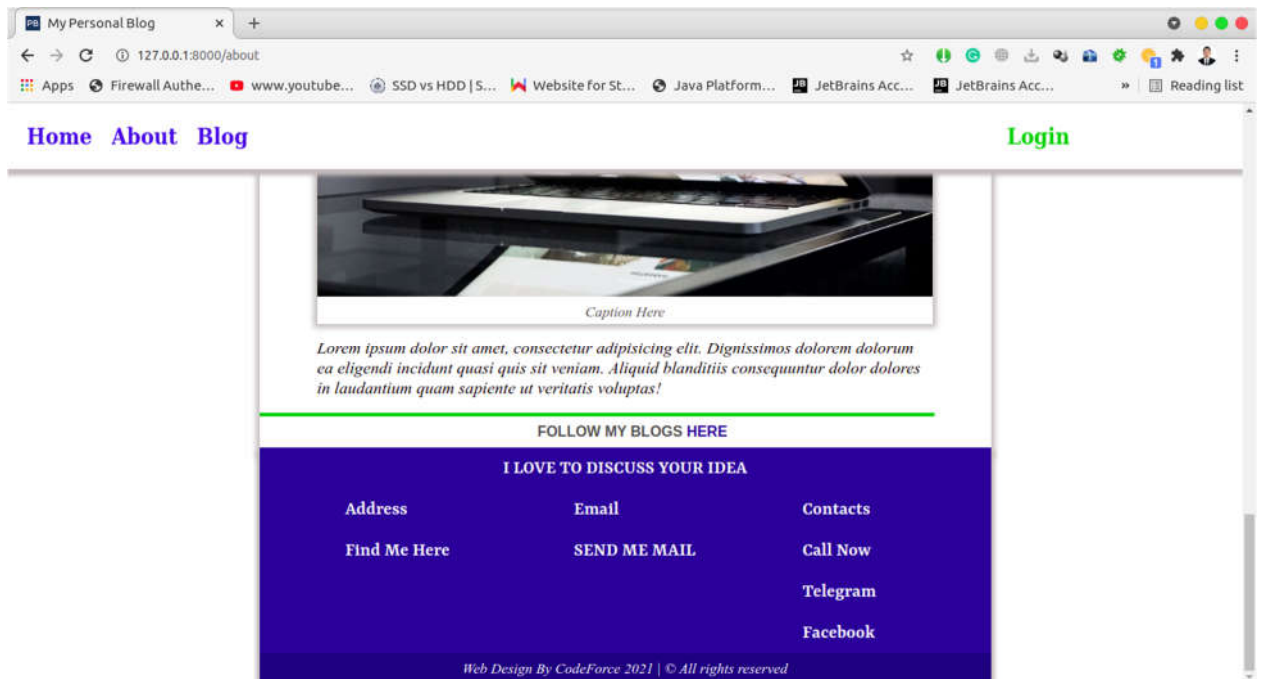

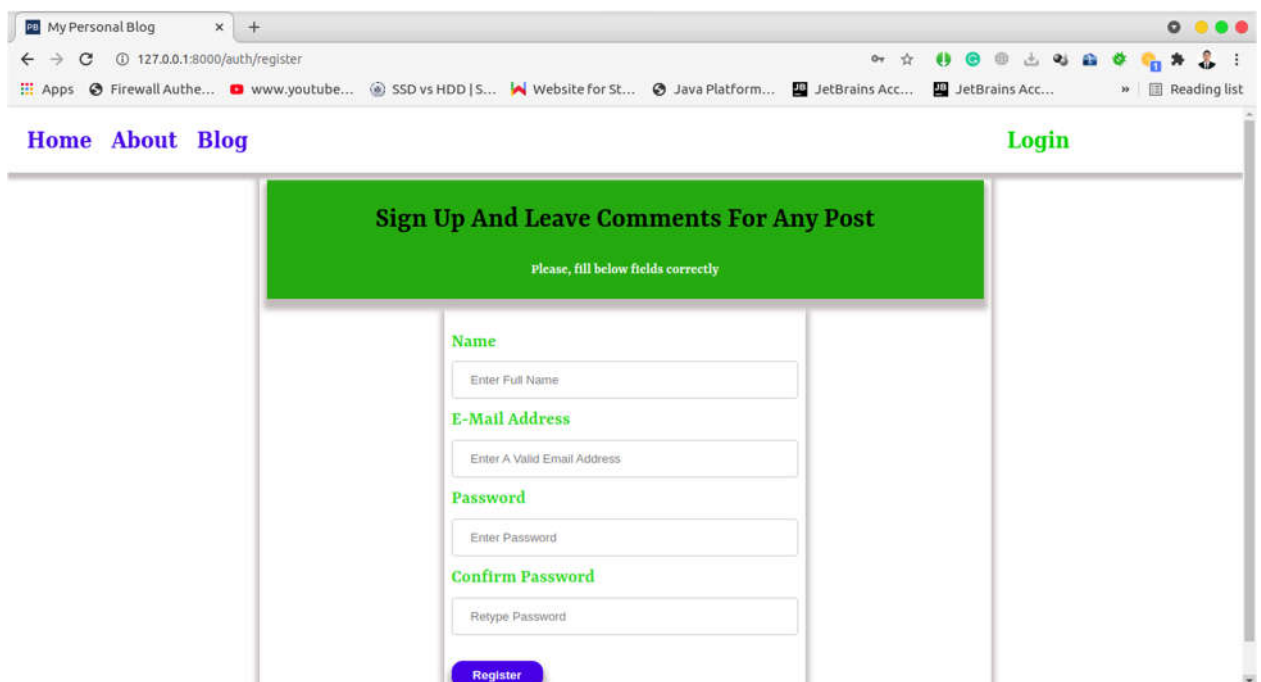

- Home page of the blog. Anyone can see when they go to the web page. Follow button redirects to sign up page.

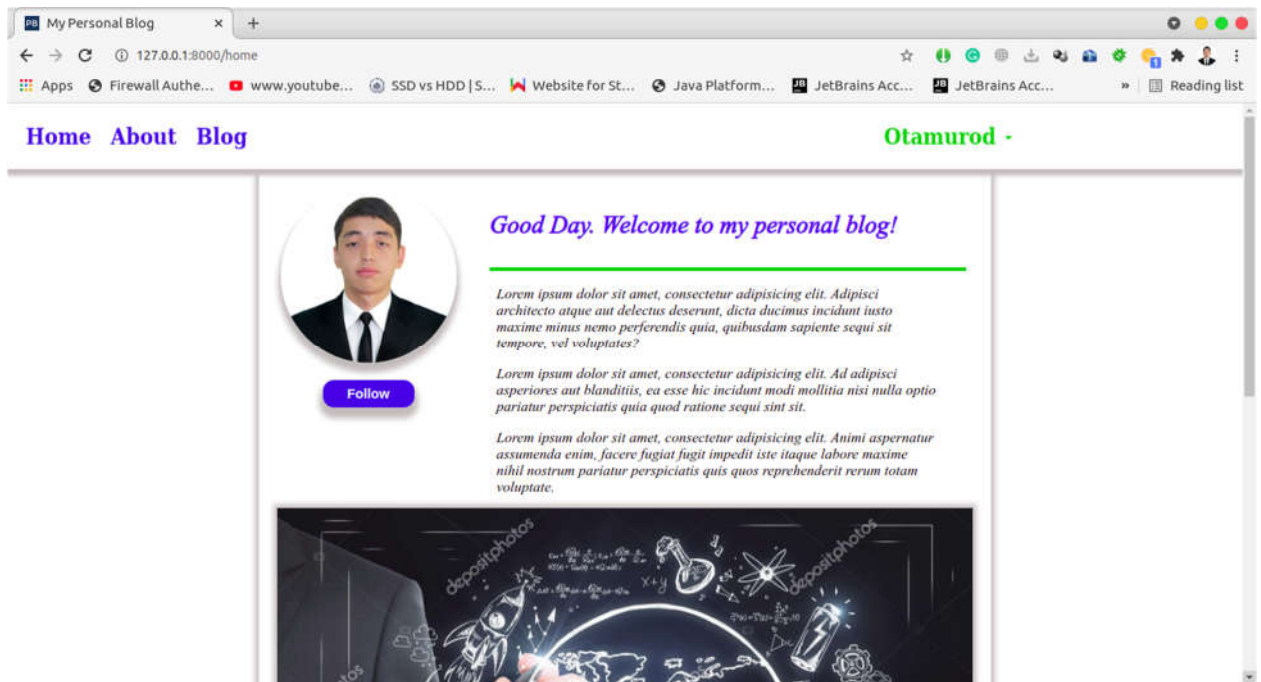

- Home page Footer view. Contacts, mail, address are available.

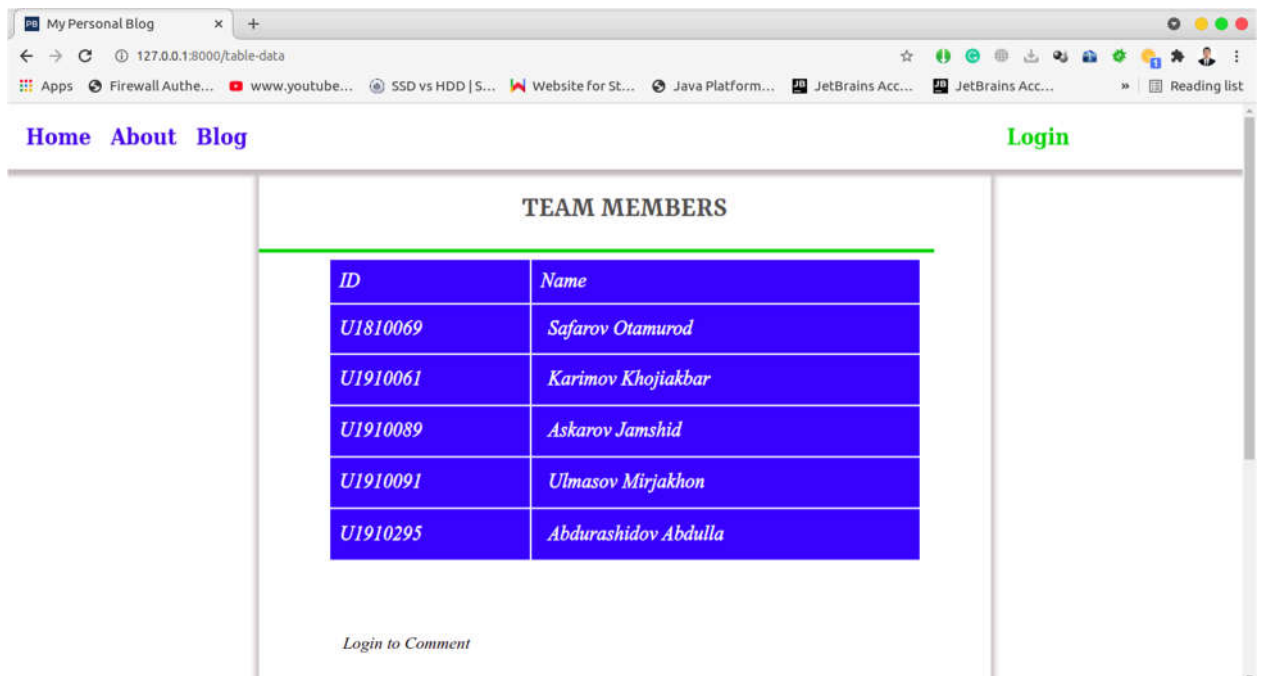

- The text "Follow my blogs here" opens blogs of the blogger or simply one can see all blogs by pressing Blog on the header.

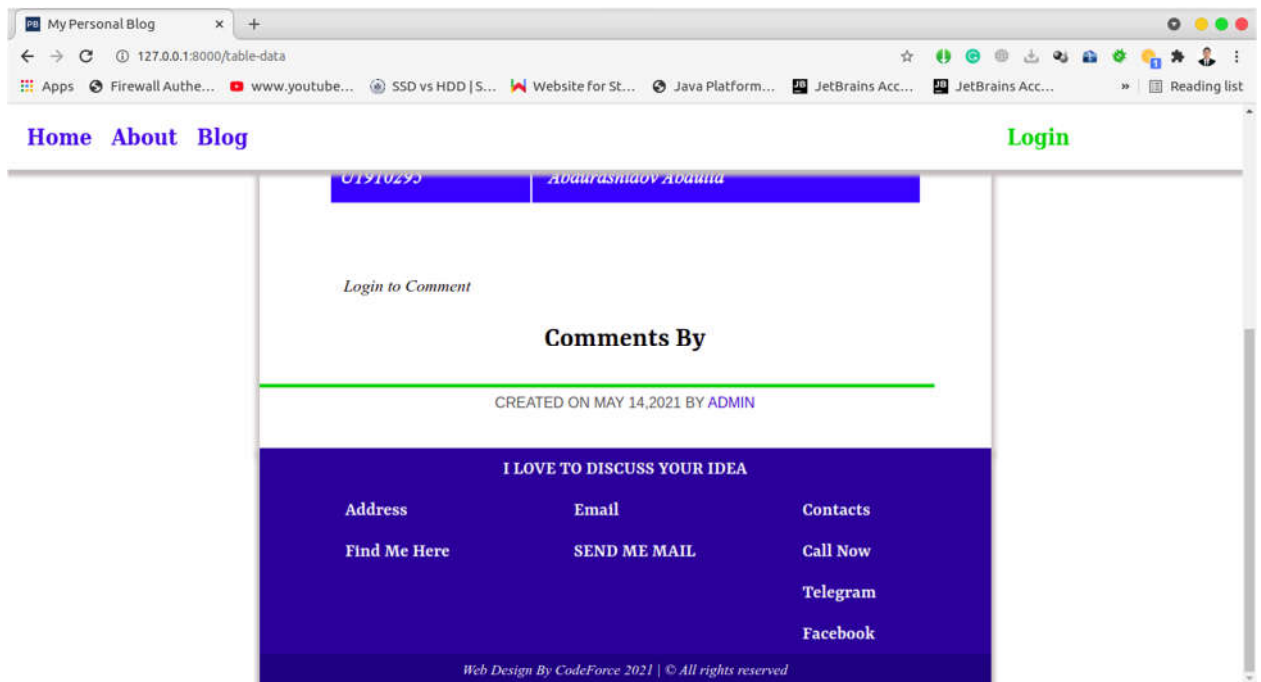

- This page will be shown when a person presses Follow button on Home page or Register link on Login page.

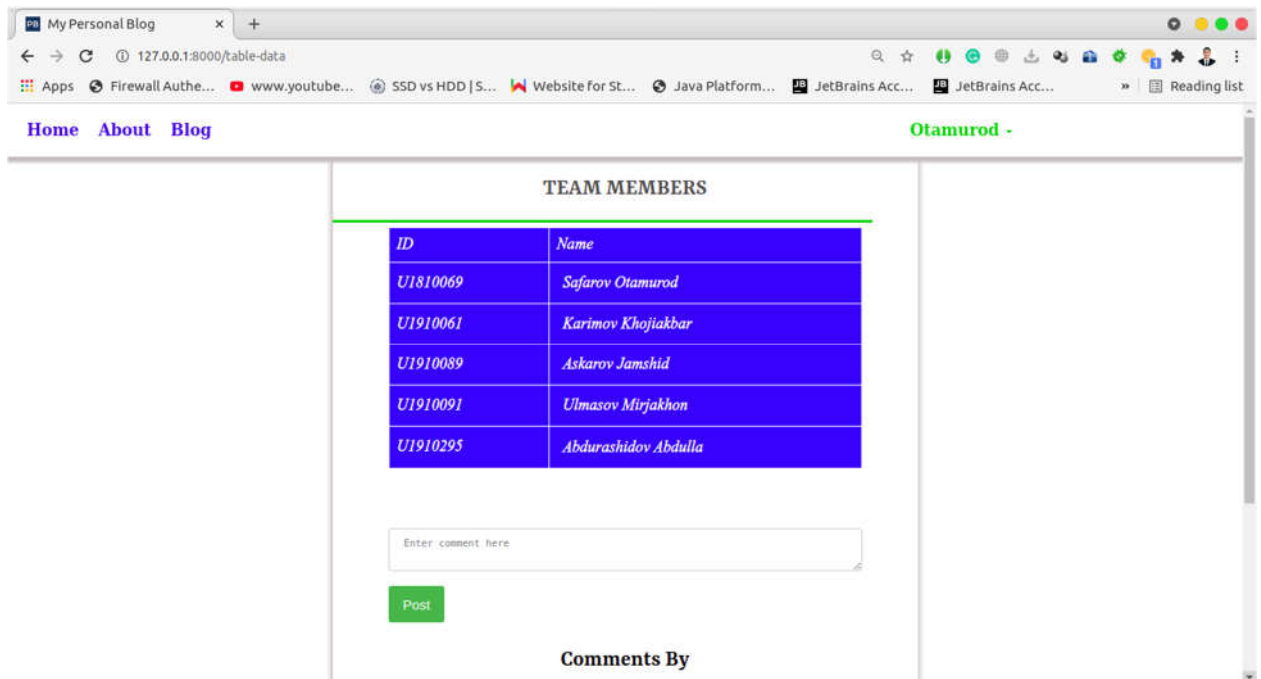

- When a follower logs in, he/she is redirected to home page. Now subscriber can comment blogs.

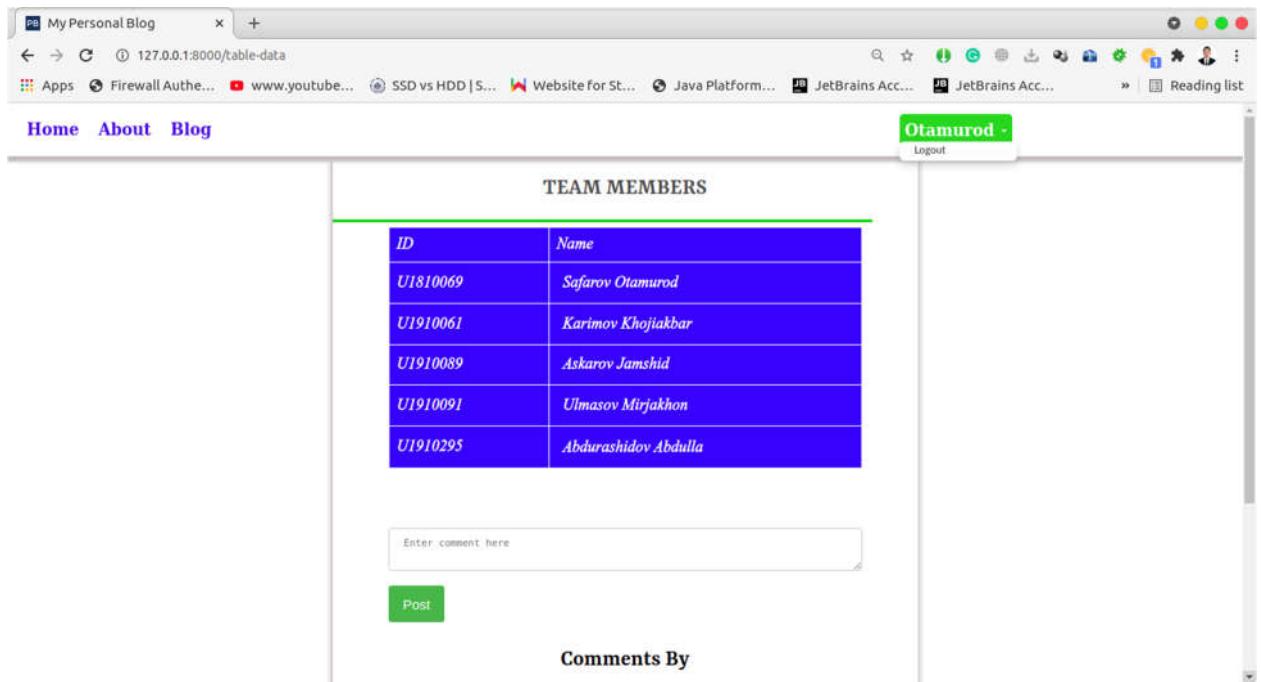

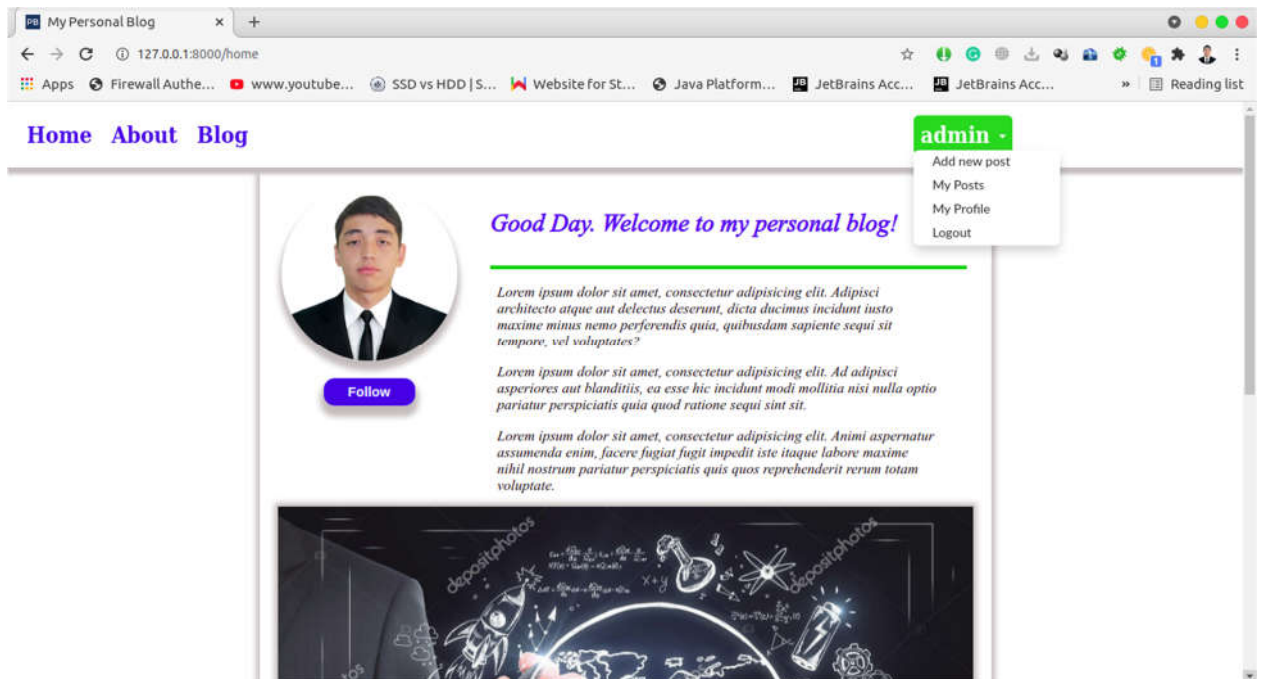

- One cannot comment a blog without login. If one presses a link ADMIN on the text CREATED by ADMIN, admin's profile is displayed.

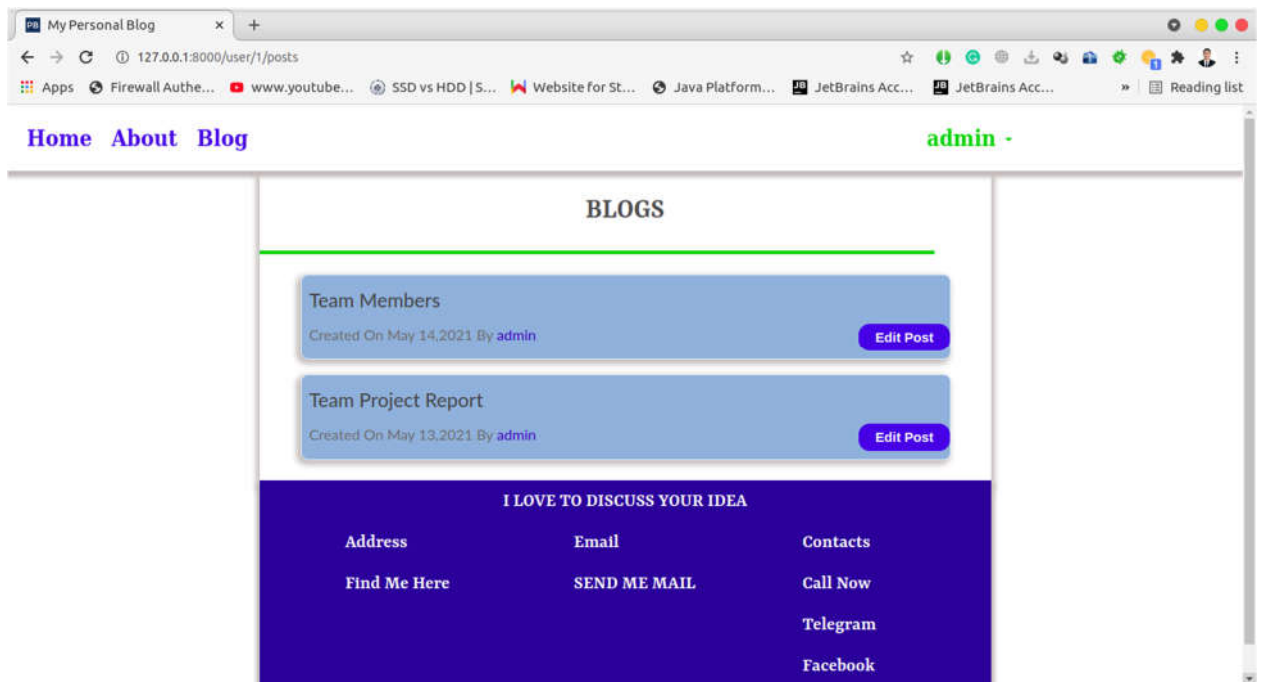

- Logged in Subscriber can comment any blog, also can see other comments.

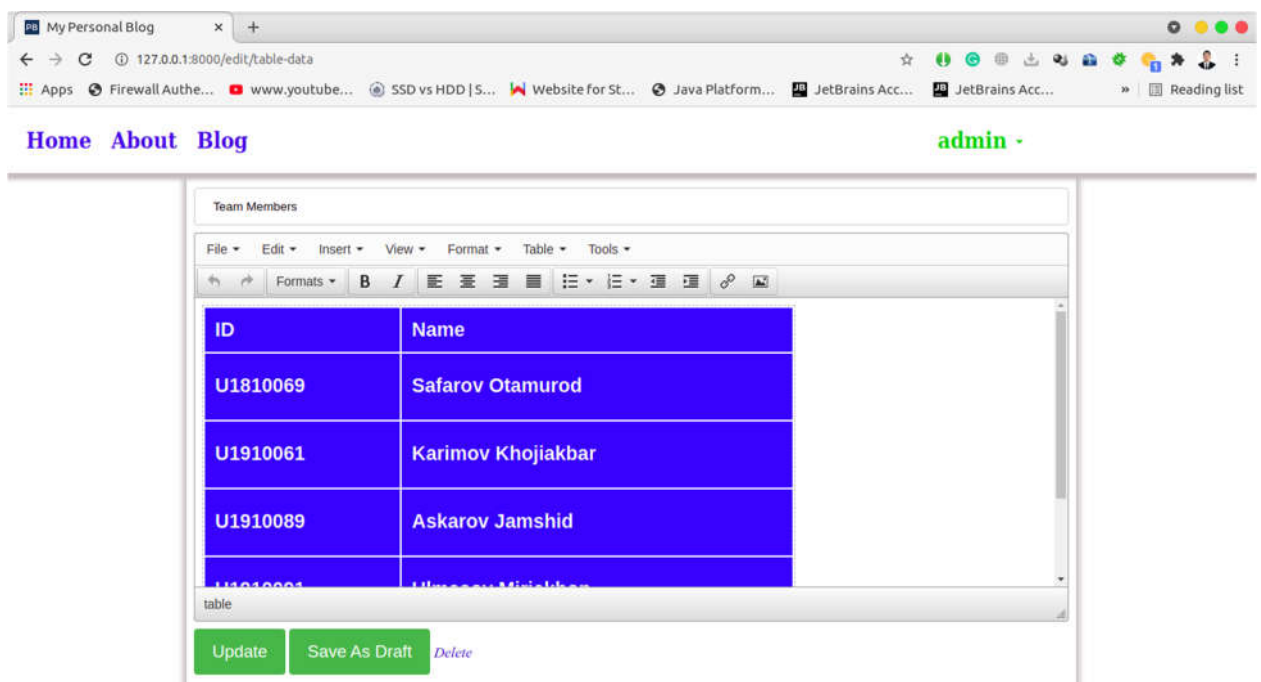

- Press Logout to log out.

- Blogger controls his/her blogs. e.g.: Adds new blog, manages his posts (edits, deletes, reads comments), checks out everything using his profile, or log out.

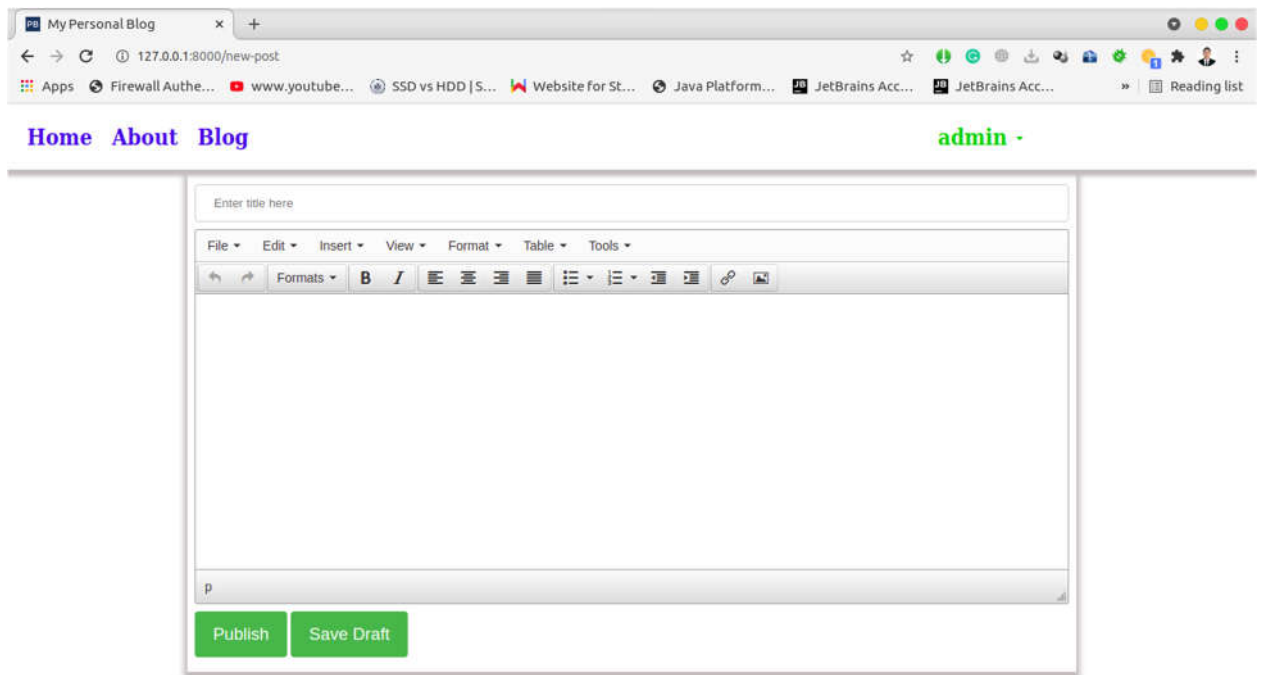

- Edit post button will be visible if admin logged in.

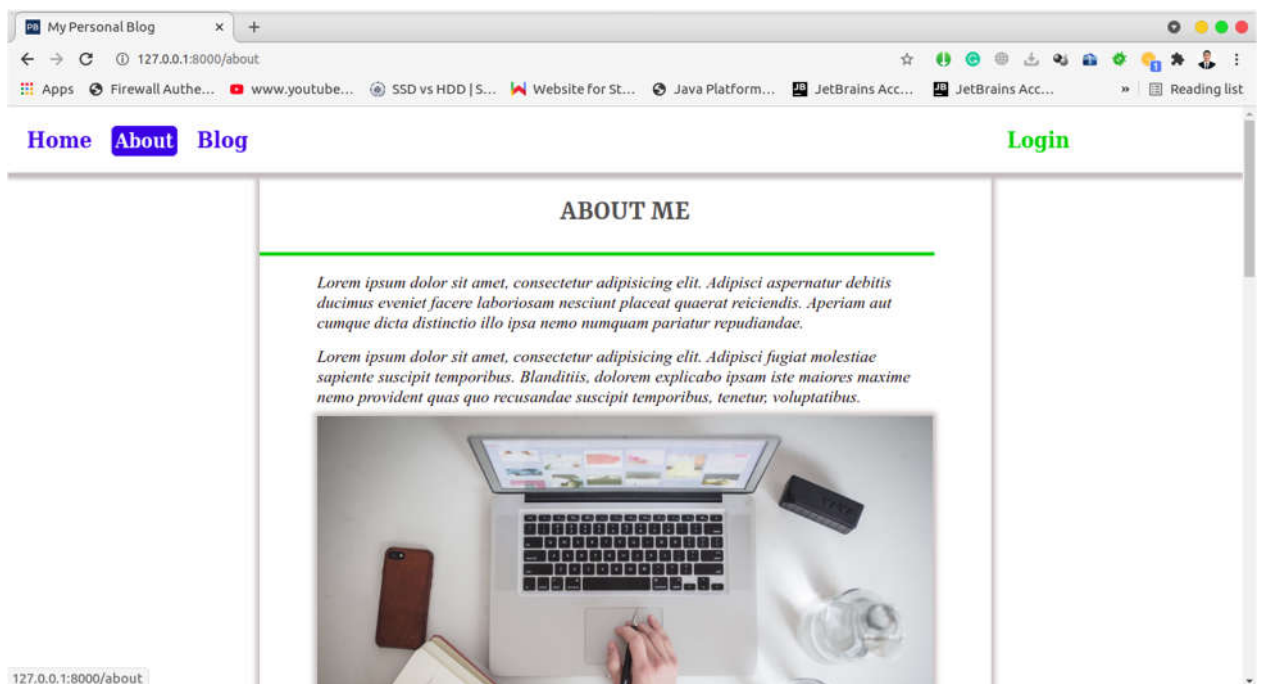

- Edit post page view.

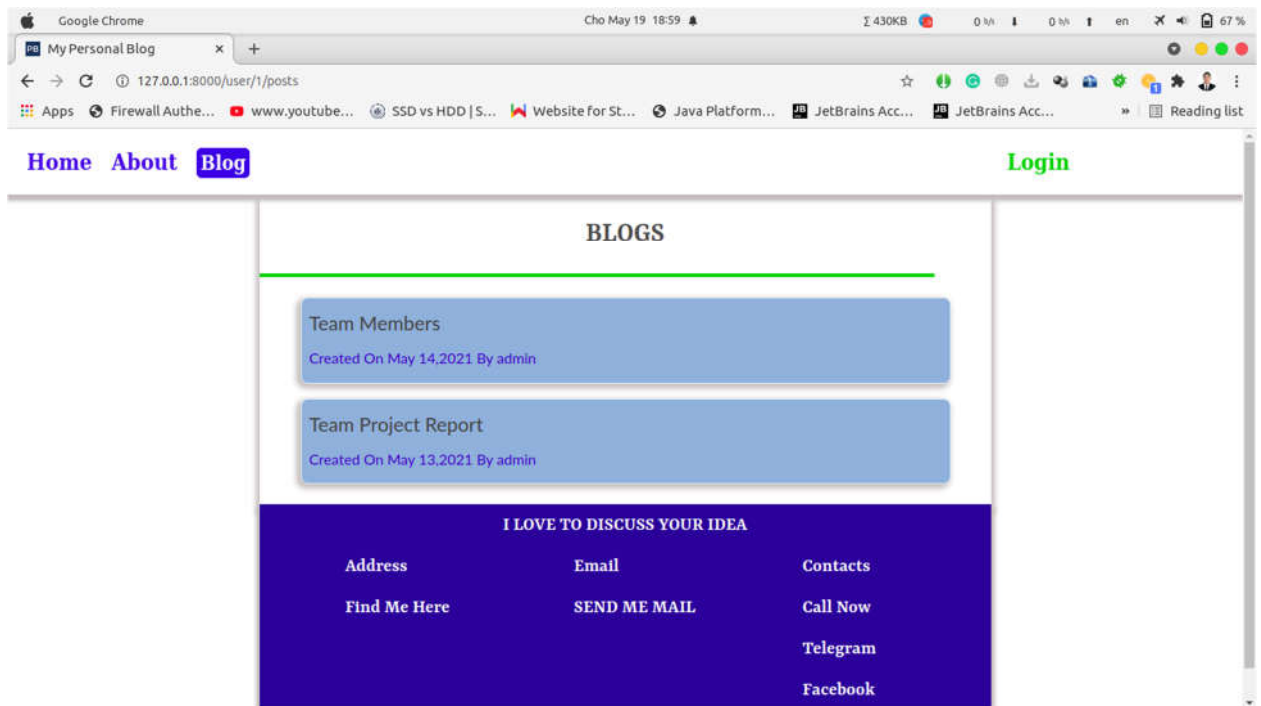

- Blogger can add new post. Publishes it to public or saves it as draft before publishing.

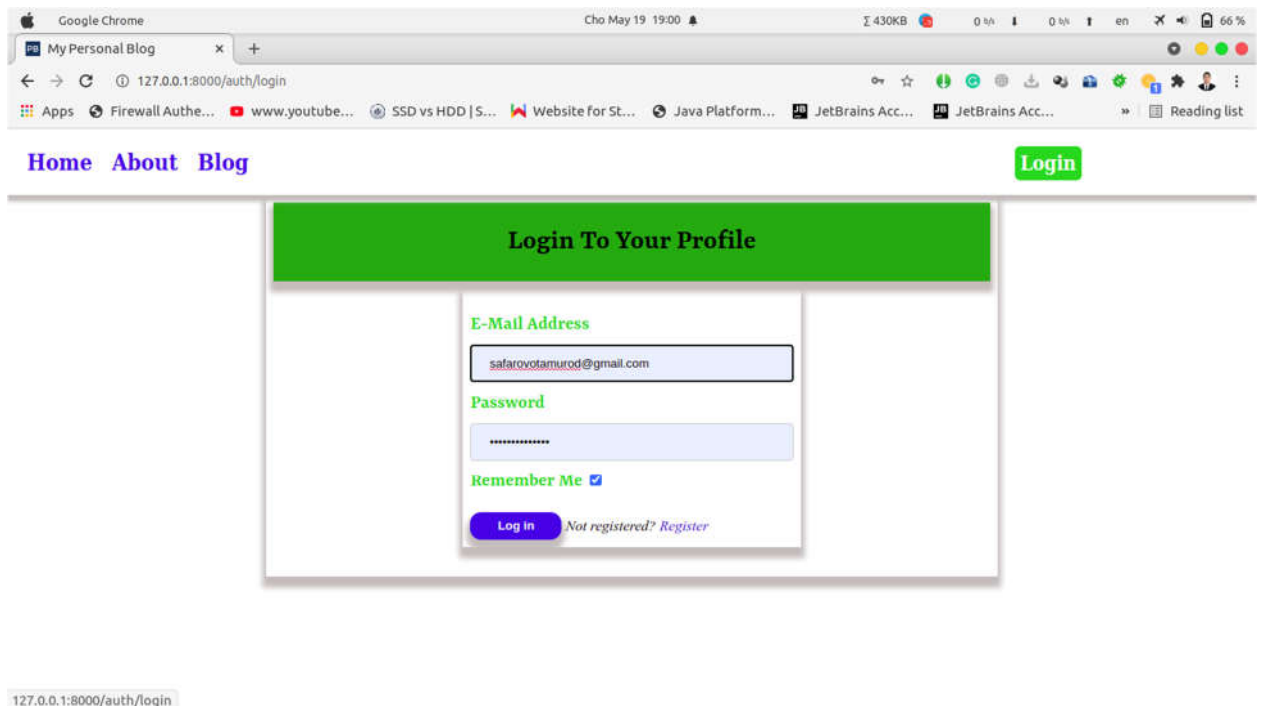

- Without log in anyone cannot see information about blogger.

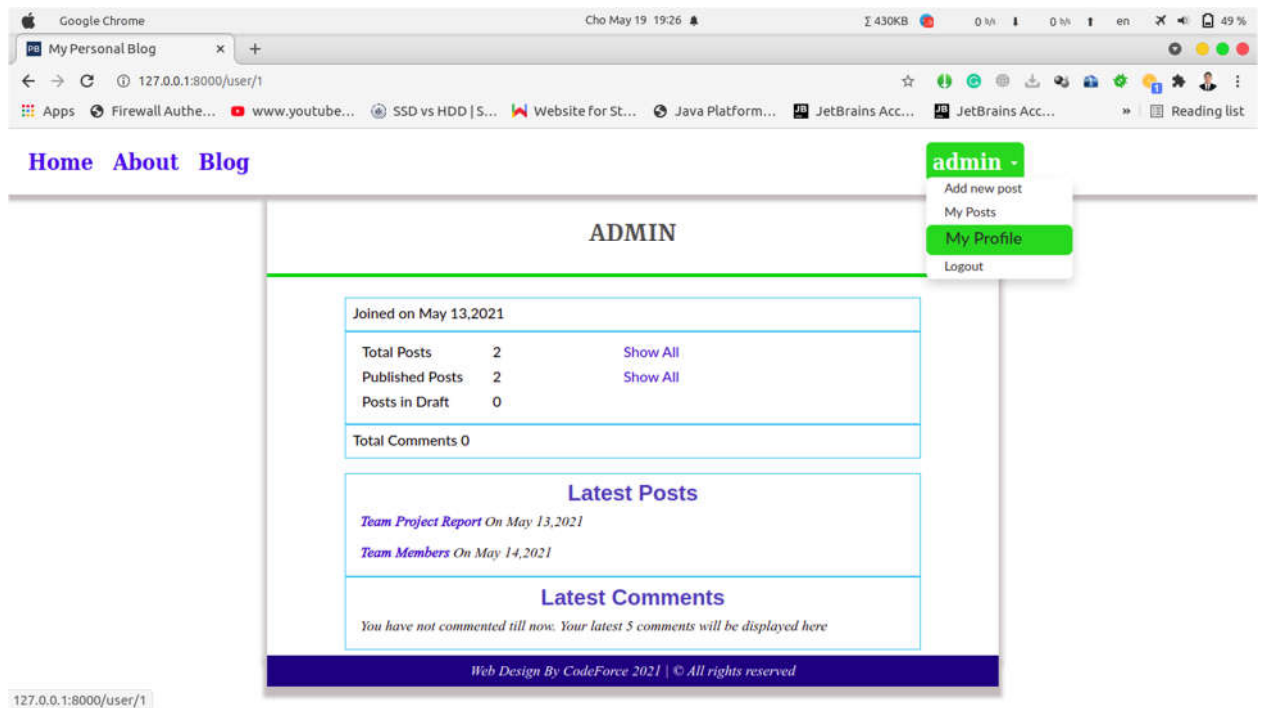

- All blogs are displayed here.

- If a user has registered before, then he/she can log in by pressing Login on the header.

- Blogger's profile page view. Blogger can manage all posts, drafts, comments, etc.

## Summary of each member's contribution to the project

This time we divided our project into small parts that everyone who has good knowledge on particular programming skill did his task very well. In the below I will list all team members job positions in our project:

- U1810069 Safarov Otamurod – Backend Developer
- U1910061 Karimov Khojiakbar – Backend Developer
- U1910089 Askarov Jamshid – Backend Developer
- U1910091 Ulmasov Mirjakhon – Database Developer
- U1910295 Abdurashidov Abdulla – Frontend Developer
